Alnwick Gardens and Castle

We will begin the day with a visit to Alnwick Gardens. The Garden in Northumberland is one of the most exciting contemporary gardens to be developed in the last century, a magical landscape created from a unique idea.

It was the Duchess of Northumberland's vision to create a beautiful public space accessible to everyone. The Garden features spectacular water displays, wonderful gardens and one of the largest tree houses in the world.

At 12:30pm we will move on to visit the Castle. Alnwick Castle is the second largest inhabited castle in England and has been the home of the Earls and Dukes of Northumberland since 1309.

The earliest mention of Alnwick Castle in the history books appears soon after 1096 when the earliest parts of the Castle were erected. The Castle was first restored in the early 1300's and portions of this restoration remain today, including the Abbot's Tower, the Middle Gateway and the Constable's Tower.
